To Whom It May Concern:

Housing Opportunities Project for Excellence (HOPE), Inc. is a private, nonprofit organization that fights housing discrimination in Miami-Dade and Broward Counties and ensures equal housing opportunities throughout Florida. The settlement of housing discrimination cases resulted in the establishment of grant funds for individuals with disabilities for modifications designed to make homes safer, remove architectural barriers, and create greater accessibility. Housing and Assistive Technology, Inc. (HAT) has worked with HOPE for the past five years providing barrier-free housing assessments, design and construction recommendations, licensed contractor bid obtainment, and construction management/oversight benefitting frail, elderly individuals and persons with disabilities.

HAT has completed seventeen (17) projects with HOPE that included the following: accessible kitchens, safer flooring, bathrooms, ramps, vertical platform lifts, entrance/rear walkways, accessible and safer doors, HVAC systems, overhead ceiling lifts, door widening, and special assistive technology product installation. The projects ranged in cost from \$7,000 to \$25,000. Beth Kofsky served as Project Manager on all project. Her assessments were comprehensive, contractor bids obtained from licensed/insured companies, and oversight of construction work included regular inspections, updates, and appropriate adjustments for our clients. All projects were 100% complete with HOPE's satisfaction and appreciation.

HAT has always performed their work in a timely, efficient manner. HOPE recommends HAT to providers and individuals who assist or work with both the frail elderly and persons with disabilities for the company's knowledge, skill, quality work, caring and professional services that we have been able to depend on. We have found the company to be honest, reliable, and complaint-free. We would not hesitate to use their services in the future.
