TO WHOM IT MAY CONCERN

As per the request of Beth Kofsky of Housing and Assistive Technology, Inc., I am providing you with the following information.

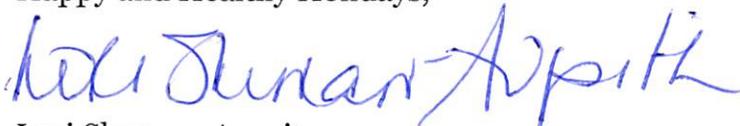

I have been a Court Appointed Guardian/Geriatric Social Worker for over thirty (30) years, and thus have had the need to use Housing and Assistive Technology, Inc., (HAT) for numerous wards/clients. During this time, HAT has provided "Barrier-Free" Comprehensive Housing Assessments, Design and Construction Recommendations, Licensed Contractor Bids (licensed and insured), and Construction Case Management Oversight for my frail elderly and clients with disabilities in both Miami-Dade, Broward County, and even one of my younger handicapped wards who moved from Dade County to South Carolina.

HAT has always performed their work in a timely and efficient manner in over five (5) cases to include; accessible and safer flooring, kitchens, bathrooms, ramps, entrance/rear walkways, accessible and safer doors, door widening, installing special assistive technology products, and completing other rehabilitation work for clients' homes, in order to make their homes safer, and create greater accessibility for them to continue to reside in their "least restrictive" setting. The projects ranged in cost from \$1,000.00 up to \$50,000.00. What truly impressed me about HAT was the regular inspections, updates, and management of the project from start to finish.

I am confident that you will receive the same knowledge, skill, quality work, caring, and professional services that I have been able to depend on.

If you have any questions, please do not hesitate to contact my office.

Happy and Healthy Holidays,

Lori Shuman-Auspitz
Professional Guardian/Geriatric Social Worker
